I have lived in Swillington since 1986 and I have always been involved in our community. I think it is important to care about the community in which you live. I joined the parish council in July 2011 I enjoy being a councillor and hopefully making a difference. I became the Chair of the parish council in 2012.

One of my achievements whilst Chair has been the refurbishment of the Children's Playground and recently with money obtained from the Tesco's *Bags of Help* funding scheme we have installed more play equipment. To help combat social isolation and loneliness, the parish council in partnership with Rural Action Yorkshire started an over 55's drop in which we have called "Elderberries". There are twice weekly sessions with interesting and lively speakers, held in in our recently refurbished village hall.

I am also a member of Swillington in Bloom and a trustee of Swillington Educational Charity. I retired in 2002 from a career as a dental hygienist. I have two children, two grandchildren and one great grandchild.
