I have lived in Swillington just about my whole life and moved in to the village with my parents and brothers in 1962. Although this is the first role that I have undertaken to directly help the local Community, which I care a great deal about, I have been involved in several other voluntary roles including that of a School Governor, Cub Leader and Scout Leader. I do hope that my time as a Parish Councillor will prove productive, helpful and make a difference to others.

I have spent the greater part of my Career serving the public in various ways as a Servant of the Crown. Having retired from this role and finding that I had too much time on my hands I returned to full time employment and was given the opportunity to work within the Rail Industry again serving the Public. It is my intention whilst serving as a Parish Councillor to help others where I can and to support my fellow Councillors.
